Advantage Partner shall be paid an override of 10% of all commissions paid to the additional marketing channels they procure. Example: Broward Board of CPA's was set up on an association program. Commissions check of \$5,000.00 each month goes to the Broward Board of CPA's. A 10% override commission = \$500.00 to the referring advantage partner. Note: there is no limit to the additional marketing channel's you can build; we have some agents that receive over \$12,000.00 a month in override commissions on top of their own sales commission! Visit our website at [www.advantagebroker.com](http://www.advantagebroker.com) and see how easy it is to build additional Advantage Partner/Agent marketing channels.

NOTE: As referred Partner channels percentage increases thru the 4 tiers of commission levels, then set override decreases proportionally. As an example, your referred Partner channels who submit signed applications and achieve the (60%) commission level, your referral override goes to (5%). Once your referred Partner channel achieves the (70%) commission level, your referral override commission goes to (2%), and once your referred Partner channel reaches 80% your override commission goes to (1%). Override commission shall be paid so long as both you & your referred partner channels remain in active status.
